Dat	te Signature	

Yes/No

## NOTE:- NO INSURANCE IS IN FORCE UNTIL THE COMPANY NOTIFIES ITS ACCEPTANCE OF THE PROPOSAL.

#### INSURANCE OF PROFITS AS THE COMPLEMENT OF FIRE INSURANCE

The two vital factors of your business are CAPITAL and REVENUE. As a prudent business man you insure your business property against loss or damage by fire. Your business property is your CAPITAL, which like active machinery, means REVENUE to you. When it is rendered inactive by fire it ceases to earn REVENUE. The Fire Policy makes good loss by fire to your CAPITAL - your buildings, Machinery and Stock - but it does not protect you against LOSS OF REVENUE.

LOSS OF REVENUE invariably follows the outbreak of fire in business premises. Fire always interrupts or interferes with business and Turnover, Output, or other standard by which your business, drops - perhaps falls away completely.

The result is threefold and may be summarized thus:-

- You lose the NET PROFIT which would have been earned had no fire occurred.
- You must continue to pay the STANDING CHARGES of your business, even though it be brought to a complete standstill as a result of the fire.
- You are faced with the necessity of paying INCREASED COST OF WORKING in order to bring your business back to normal as speedily as possible.

Insurance which provides against the above three contingencies is undoubtedly worthy of consideration and consequently the "Profits" Policy issued by "Intra Africa" should engage your attention without delay. Intra Africa offers its advice as to the most advantageous terms and conditions under which the necessary protection may be secured.

You place yourself under no obligation by replying to the questions overleaf, and on receipt of this form a quotation and full details of the "Profits" Policy most suited to your particular business will be submitted.
